Robert A. Murphy to J. Stanley Pottinger 3/31/75

All was originally held to be exempt from declassification provisions on 4/9/76 - after this suit was filed. Now all is released, with some redactions. What can be released now could have been released at any prior time

*Turner's declassification dated 12/21/77

To p 25 no source is cited although there are many references to & direct quotations from FBI records. There has to have been some records other than this memo, so written means of supporting it. What Church committee released + then what FBI volunteered to it so withheld, like the content of the letter in which the FBI tried to force King to suicide (p #4)
